

VASHUDEV

FRONTEND AI ENGINEER | FULL-STACK PRODUCT DEVELOPER

+91 9354235038 • kaushikvashudev8920@gmail.com • New Delhi, India

Portfolio: <https://vashudev-portfolio.vercel.app> • GitHub: github.com/vashudev2006 • LinkedIn: linkedin.com/in/Vashudevkaushik

PROFESSIONAL SUMMARY

Frontend AI engineer building interactive, explainable web products across real-time 3D and data-informed automation. Combines React-based UI work, secure API integration, and full-stack delivery from prototype through deployment.

EXPERIENCE

AI Engineering Intern — FlyRank AI Internship (Remote, self-paced)

July 2026 – September 2026

- Completed the Front-End AI Engineering and AI Fluency tracks, building responsive, AI-assisted web projects with modern frameworks.

Intern — Decimal Technologies Private Limited

June 2025 – July 2025

- Completed a technical internship gaining hands-on exposure to real-world development practices.

TECHNICAL SKILLS

Frontend & Interaction: React, Vite, React Router, JavaScript, React Three Fiber, GLSL, HTML, CSS, Responsive UI

Backend, Data & Cloud: Node.js, Express.js, REST APIs, MongoDB, Mongoose, Firebase, SQL, Electron, Render, Railway, Vercel

AI & Developer Tools: Generative AI, Prompt Engineering, AI-assisted workflows, Python, Google Search Console, GA4, Git, GitHub, Postman

Engineering & Core CS: Authentication, Role-based access control, Java, C, C++, C#, Data structures, OOP, DBMS, Operating systems, Cybersecurity

PROJECT EXPERIENCE

Psych+ Healthcare Platform | React, Node.js, Express.js, MongoDB, Firebase, Electron

- Delivered a multi-role React web app and Electron desktop app, built on Node.js and Express.js, for patient, doctor, and admin workflows covering profiles, appointments, approvals, payments, dashboards, and protected chat.
- Implemented 15 REST API routes with Express.js and MongoDB (Mongoose), role-based access control, Firebase-backed notifications, automated status emails, and deployments across Vercel, Render, and Railway.

Drag-and-Drop GLB Viewer | React, React Three Fiber, GLSL, 3D Interaction

- Created a browser-based local GLB viewer in React using React Three Fiber and GLSL, with a stable 3D scene, orbit controls, and immediate material adjustments for hands-on model inspection.
- Kept model controls and visual feedback together in the React component tree so configuration changes remain understandable and practical in real time.

EDUCATION

B.Tech, Computer Science Engineering — IoT with Cybersecurity & Blockchain Technology

Dronacharya College of Engineering, Gurugram | Expected 2027

Senior Secondary (CBSE), Science PCMB: 88% | Secondary (CBSE): 91%

Rao Tula Ram Govt. Sarvodaya Vidyalaya, Surehra, New Delhi – 110043

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate (2025)
- IBM SkillsBuild: Use Generative AI for Software Development
- Full Stack Web Development with MERN — SkillForge Academy (2025)
- Information Technology — Infosys Springboard (2026)
- C Programming Certificate — IIT Bombay Spoken Tutorial Project (2024)
- Completed 20 Anthropic Academy AI Fluency Certificates (2026)
- Networking Basics — Cisco Networking Academy (2025)
- Cyber Security Workshop — Thetechuniqu Academy (2024)

CORE STRENGTHS

Problem Solving • Analytical Thinking • Self-Learning • Teamwork • Technical Documentation • Time Management • Adaptability
